Migrants in Care – ECVET Mobile Learning App on customer care

This project (project n° 2018-1-DE02-KA102-004804, acronym in use: Migrants in Care) has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

It is funded under „Strategic Partnerships for vocational education and training“ between

Erasmus+

Project key words

Further strengthening key competences in VET (vocational education & training)

Open education and innovative practices in a digital era

Social inclusion

Erasmus Plus

Mobile App

Common European Framework of Reference for Languages: Learning, Teaching, Assessment (CEFR)

EXTRA ISSUE / COVID-19

We do not need to explain the situation beyond what is known to everyone. The pandemic caused by COVID-19 is sweeping Europe and threatening the entire Earth.

In fact, one of the member countries of the partnership, Spain, is suffering, after Italy, a human disaster, with thousands of people infected daily and, what is sadder, thousands of deaths that increase day by day.

First of all, our memory of all the victims with the wish of all of us who integrate this project of a question would improve for all the sick and the wish that I can find you the antivirals or the vaccine that can eradicate this disease.

As a consequence of this situation, like other European projects, the normal development of "Migrants in Care" has been altered; each of the governments is taking the measures that each deems appropriate but that, in our case, have a common denominator: we cannot guarantee a constant flow of work today; The information chains are interrupted since we cannot have access to stakeholders, to care centers (our project, which bases part of its work in nursing homes, is a group that has been particularly hard hit by the pandemic) ...

Therefore, and pending the clarification of the situation, after agreement between all the partners, the development of the project is put on hold (almost complete) due to the absence, as we have mentioned, of labor, partners, stakeholders , etc., but, of course, the partners continue to work on the project, as much as the current situation allows.

The National Agency is very supportive and kindly agreed to extend the project period to ensure that we can continue to achieve high-quality results.

panorama

A new timeline is currently being developed for the remaining highlights, including:

Multiplier events.

The date of the final meeting in Germany.

The job will resume in its entirety after the lockdown, as soon as possible again; the information will be distributed in an upcoming newsletter and on the website.
